## Helping You Keep Your Eye On The Ball

# eSalus<sup>®</sup>

Online H&S Recording and Monitoring

#### What our client says about eSalus

eSalus has stood the test of time and our ability to respond to health and safety issues and also meet regulatory requirements with regard to reporting RIDDOR events has been extremely good since we started using this nearly six years back. Very different from the days when we had to keep paper records and it was a nightmare to keep track of everything in a timely manner.

- NEIL GOFF, DIRECTOR, HEALTH AND SAFETY, TELEREAL TRILLIUM

## **Key Features**

- Environmentally friendly due to elimination of paper forms
- Ability to record all slips, trips and falls in simple online form

- Designed to meet the exacting requirements of the British Government
- Computer based training means people clear on what to do
- Links to core data ensure integrity of reporting
- Over 250 reporting combinations

## **Benefits - Why should you consider this?**

**Accident Awareness Presentation & Reporting** 

**Centralised Knowledge Base:** The organisation's process knowledge can be stored in a single location and can be accessed by all staff globally. Eliminates all potential problems arising out of use of hard copy documents or Office documents.

Information Integrity: Strict and easy to maintain version control ensures that everyone gets to view and use the current information

Access Control: Ability to control as to who can view what ensures confidentiality of information

**Metrics:** Comprehensive reports provide an idea of the usage of the system by the user base along with the rate of use of specific documents, enabling management to take corrective actions

Supports Management Systems Certifications: Use of eOperandi has been found to aid obtaining of ISO 9000 and other management systems certifications since it allows easy maintenance of documentation, ensures strict document control and in general generates confidence in one's management system implementation

Supports Internal and Third Party Audits: Audits of managements systems can be done more effectively and efficiently with the aid of the system and in one case it was found to have brought down the annual cost of a certification body audit from £2.7 million to £30,000

Vision: To Empower Organisations Globally, Large and Small, To Consider, Plan & Manage Compliance And Risks Effectively

Differentiations: International TREBLE Award Winner, Innovation, Customer Care and Service
